@ venkateshkulkarni8951@gmail.com

📍 Bangalore

## EXPERIENCE

### Internship

#### Kalpas Innovations Pvt.

📅 08/2024 - Present 📍 Hubli, India

- Working as a **Nodejs Backend Developer** utilizing Node.js, **JavaScript**, **MongoDB**, **MySQL**, and **TypeScript**. Developed and maintained RESTful APIs, integrated third-party services, implemented authentication and authorization using **JWT** and **bcrypt**, performed input validation, error handling, and wrote middleware. Used **Postman** for thorough API testing and debugging.

### Internship

#### Ionidea Interactive Pvt. Ltd

📅 10/2023 - 02/2024 📍 Hubli, India

- Worked on web app development with **PHP**, **MySQL**
- Worked on a **Python automation project** involving **Databases** and **REST APIs**

## PROJECTS

### Guardian Milk: Detecting Milk Adulteration with IoT & Data Analysis

📅 04/2023 - 08/2023

Tech Stack - Arduino , Things Speak

- Focuses on detecting **milk adulteration** and its impact on health.
- Identifies whether the milk is **acidic or basic**.
- Quantifies the level of adulterants** present.
- Utilizes **IoT and data analysis** techniques.
- Aims to **ensure milk purity and consumer safety**.

### App Developer – Food Wastage App

📅 01/2022 - 08/2022

Tech Stack - Java , Firebase , Android Studio

- Mobile app** developed to reduce **daily food wastage**.
- Citizens can upload food images** with one click.
- Location is auto-captured and stored** in the database.
- Helps in **minimizing food waste** and promotes **sustainable food use**.

### Expense Tracker

📅 08/2024

Tech Stack -Node js , MySQL , Postman

- Track Expenses:** Add, edit, and delete daily expenses for better money management.
- Budgeting:** Set budget limits by category to support financial planning.
- Reports & Analytics:** Generate reports to visualize spending trends.
- User Security:** Secure login and profile management to protect financial data.

## SUMMARY

I aspire to join a dynamic and innovative organization where I can continuously grow as a software developer, expand my technical expertise, and contribute meaningfully to impactful projects. I seek opportunities that challenge my skills, foster creativity, and allow me to deliver real value through dedication, problem-solving, and a passion for technology.

## EDUCATION

Master Of Computer Application -8.7  
CGPA

BMS Institute Of Technology And Management ,  
Bangalore

📅 02/2021 - 11/2023

Bachelor Of Computer Application - 77%

Basaveshwar Science College , Bagalkot

📅 05/2019

## SKILLS

JavaScript

Node JS

MySQL

MongoDB

AWS

Oracle SQL

Java
